

COVID-19 SAFETY PROCEDURES

Together with the Austrian Ski Teaching Association, we have created measures for our ski school and lessons to enable you to have a safe holiday here in Berwang.

The health of our employees and our guests is most important to us.

KEEP DISTANCE

Please keep a distance of 1,5 meters where it is possible, otherwise wear a mouth and nose protection.

MOUTH NOSE PROTECTION

In our offices there is an obligation for mouth nose protection for adults and children from 7 years.

In order to avoid unnecessary crowds, we ask that only one member per family enters the ski school office.

In addition, the spit guard protects you at the sales points in the ski school office.

Mouth nose protection is compulsory for parents and ski instructors in the children's area.

DISINFECTION

Sufficient hand disinfectant is available in all rooms, we carefully disinfect the surfaces regularly.

If you have symptoms or feel sick, stay away and contact the Corona Hotline 1450!

The measures are subject to official requirements and the current situation, so changes may occur during the season.

Current Covid rules of conduct and measures of our partners:
